

Auto Supply Company, Inc.

The Home of Great Service®

One Call No Matter What Hood You're Under®

June 13, 2017

To whom it may concern:

Founded in 1954, Auto Supply Company, Inc. is a family-owned supplier of OEM and aftermarket automotive parts, serving the automotive repair professional from three distribution centers, 15 store locations and seven battery trucks throughout North Carolina and Western Virginia. In an effort to reduce energy costs and decrease our environmental footprint, we selected SIB Lighting to upgrade our store in Burlington, North Carolina to LED lighting.

SIB Lighting replaced 214 fixtures and helped us get an immediate rebate from Duke Power for 26% of the project cost. We'll see capital expenditure payback in 2 years with a 350% return on our investment. After just this initial location upgrade, we would recommend SIB Lighting to anyone interested in decreasing utility costs.

We're seeing significant savings on our utility bills, but more importantly, our customers and employees are raving about the lighting improvements. We look forward to SIB Lighting upgrading our additional facilities!

Sincerely,

President
