Founded in 1987, Backyard Burgers was founded in a grocery store in Cleveland, Mississippi and has grown to 50 locations across 12 states. Our customers expect the same high quality ingredients, customer service and flavor that they did more than 30 years ago.

Part of our commitment to quality is keeping our stores modern, bright and safe. We hired SIB Lighting to improve the lighting in four of our Nashville locations and one of our Destin, Florida, locations.

SIB installed 44 new outdoor pole fixtures with a 10-year warranty that includes a labor allowance. The result will be nearly \$80,000 in energy bill savings over the next 10 years.

We couldn't be happier with the results and we really enjoyed working with the team from SIB Lighting.

Sincerely,

Scott Shotter
